

31 January 2023

Dear Red Angus Members,

This letter contains details on 2023 Female Inventory.

The herd inventory is for you to manage your stock numbers. This is supplied to you so that you can see what animals are currently in your herd and to dispose of any that are active in the system but no longer in your herd.

You should also use this as a chance to transfer any animals you have not yet done so. It is essential for you to correct this list to avoid any unnecessary costs.

For those who have access to the online member page, you will be able to access your 2023 Female Inventory there. Follow this link: <https://abri.une.edu.au/online/cgi-bin/i4.dll?1=RANG&2=lo> to access the members login page, or via the Red Angus website homepage. Use your personal details to login and find the inventory file under "Download files". Once you click on this, you will find it is the file on the top of the list. If you have any password or login in issues, feel free to contact the office. For those members who do not have access online, I have mailed out printed copies to you.

Please look through the inventory list and have it back to the office by **Friday the 24th of March 2023**. I encourage you to do this promptly to ensure invoices are accurate, and can be issued and paid to allow the Red Angus Society of Australia Inc. to preform to the best of its ability.

I wish you all the best for 2023. If you have any questions, please do not hesitate to contact the Red Angus Society office on (02) 6773 3022. The office hours are Monday-Friday 8.00am-4.00pm (NSW).

Kind regards,

Josephine McGrath Weber
Executive Officer
Red Angus Society of Australia Inc.
