

Red Angus Society of Australia Inc. Schedule of Fees

Version 2022.6 (Effective from June 1, 2022)

Genetic Testing Fees

Red Angus Society of Australia Inc operates on a cash basis. These fees are calculated to cover the genetic testing costs charged by Neogen Australasia and the admin fees associated with this process. It is essential the fees cover the relative costs. Please note, these fees are heavily subsidised by Neogen, and as Red Angus Society of Australia Inc. members, you receive a great price for genetic testing.

All fees are GST inclusive
