WELCOME

5M Red Angus was established in 2021 with the purchases of cattle from various studs.

Due to a change in circumstances the herd is being dispersed as a complete dispersal.

Coupled with a embryo implant program and the purchase of various stud sires with a view to where the cattle industry was heading in the future we feel that the cattle on offer will represent the breed well in the future.

This group of cattle have been culled for various faults, there are the odd cow with a crack in the hoof but not considered genetic etc. Any cattle that have had a touch of pink eye have been treated and all calves have been treated with pilliguard.

Please feel free to contact myself for a genuine appraisal of individual lots.

Yours Sincerely

David Hobbs

Phone 0427511345
